

# PLANETIC

## Technological platform for digital sector

# What is a technological platform

Public-private structures led by the industry,  
in which all the Science-Technology-Innovation system agents  
interested in a technological field (sector)  
work together and in coordination  
to identify and prioritize technology,  
research and innovation needs  
in the medium or long term

# What is PLANETIC

Scientific&Technical innovation ecosystem which aggregates industry and academy around the digital technologies (software, infrastructures, micro-nanoelectronic, digital services, ...) in Spain

# Objectives

Representing the spanish digital sector about innovation and research

Promoting the use of digital technologies in vertical sectors

Defining the mid term research challenges for digital sector

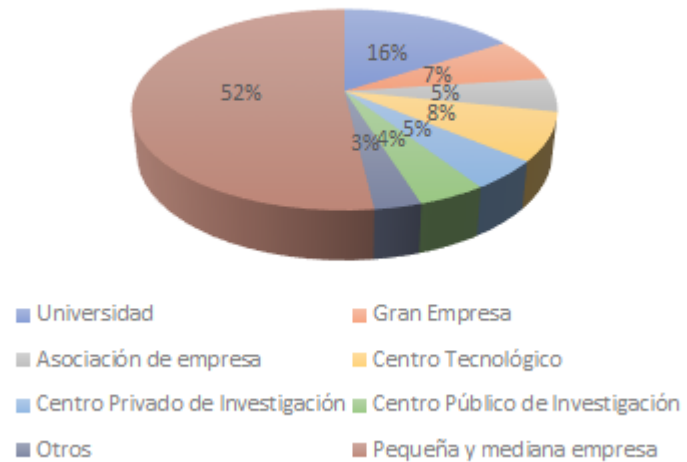

Creating awareness of spanish digital sector in Europe and worldwide

# Ecosystem members

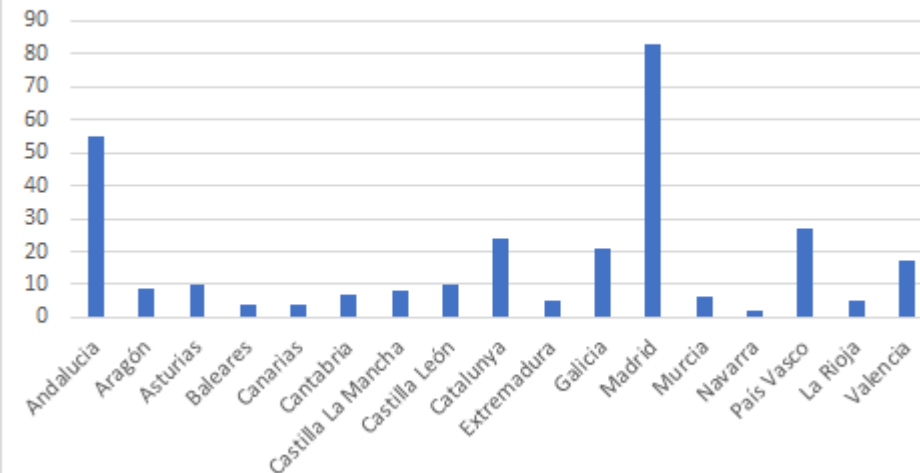

297 MEMBERS – SEP 2021

# Strategic Research Agenda

[DONWLOAD \(in spanish\)](#)

# Ongoing Task Forces

Digital Health

Next Generation  
Cloud&Edge

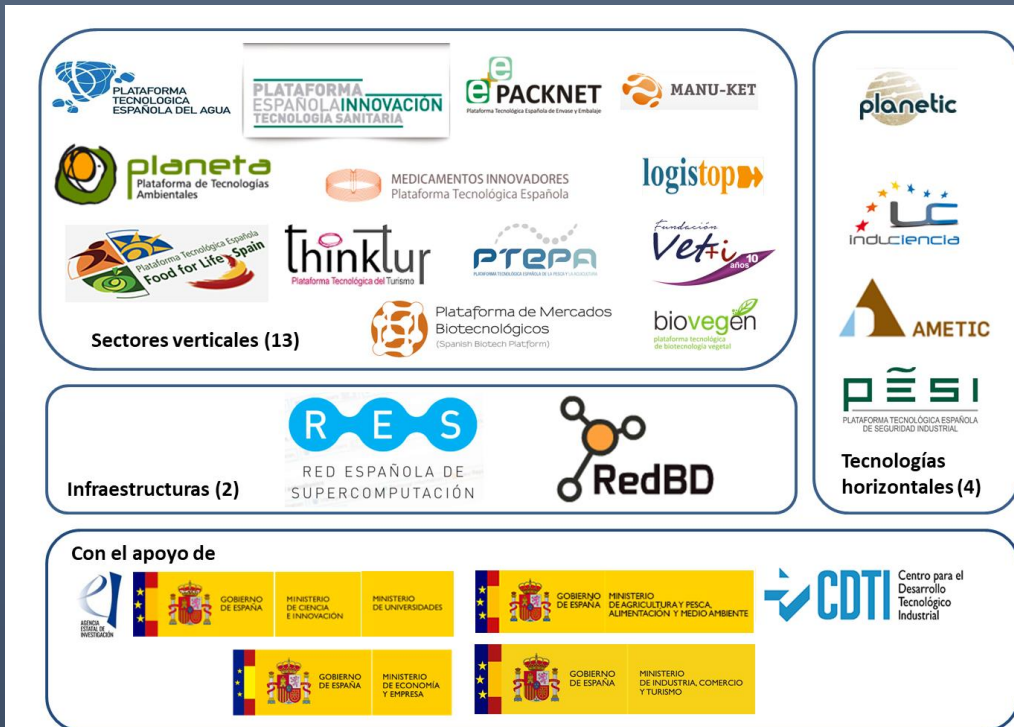

Urban Mobility

Digital  
Innovation Hubs

[KNOW MORE HERE \(in spanish\)](#)

# Big Data & AI initiative

- Define a global and common vision to implement the European data and AI strategy
- Encourage Spanish participation in European and national calls for research and innovation projects in BD and AI
- Disseminate related strategies, initiatives and technologies
- Support SMEs in the use and exploitation of data
- Identify and disseminate use cases on Data Spaces

[DATA SPACES WHITEPAPER \(in spanish\)](#)

# Collaboration with other spanish platforms

- Sustainable and secure mobility

- Cybersecurity

- Smart Cities

# Communication channels

## Partner events

# International collaborations

- In Europe

- In LATAM

# 2022 Challenges

1

Become a relevant agent for the revitalization and use of European recovery funds.

2

Strengthen the participation of partners in the actions undertaken by the platform

3

Consolidate as a relevant agent in the Cloud&Edge and Big Data&AI technology layers.

# How to participate in PLANETIC

- Platform member: free, through the web
- Member of the Steering Board: annual renewal, open applications
- Join a Task Force or propose a new one
- Contribute to the BD&AI Initiative
- Review and comment on the strategic agenda
- Submit news and events for the newsletter

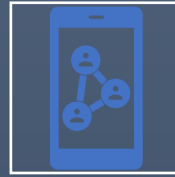

# Why joining PLANETIC

Information on time  
and selected

R&D project  
opportunities

Network of common  
interests

Influence on reference  
documents and forums

Participation in  
relevant conferences  
and events
