

SAVE THE DATE!

FIWARE Summit
December, 13th-15th 2016
Málaga, Spain

MOVING FORWARD, GOING GLOBAL

The first FIWARE Summit will kick-off a new stage for our open Community. Now, by joining the FIWARE Foundation, you will contribute to make our voice stronger.

Together, we are driving the adoption of FIWARE standards, enabling the development of innovative digital products and services ready for the market.

Together, we are bringing new business opportunities for all kind of organizations across the globe, laying the foundation of the new Digital Economy.

LEARN THE TECHNOLOGY

The FIWARE Summit will gather the members of the FIWARE OS Community that are building the core components of FIWARE. They will run a full one and a half day of FIWARE Developer's primer and many how-to sessions, helping you to learn all that is needed to create innovative smart solutions using FIWARE. Meet the experts and don't miss the opportunity to start your certification as a FIWARE developer!

MEET THE COMMUNITY

Our main asset is the commitment and hard labor of contributors from the whole FIWARE Community, including all those helping to develop the FIWARE platform components and the ecosystem around. The FIWARE Summit will comprise working meetings of the members of the FIWARE Community, where they will coordinate their present and future activities. Don't miss out and learn how the FIWARE Community works, following an open and transparent process based on merit.

UNDERSTAND THE POTENTIAL

FIWARE will help developing the smart solutions of the Future. It brings the standards needed to create a Digital Single Market, enabling portability and interoperability of solutions cross-domain and across borders. The Summit will include an open conference where you will hear the voice of the experts and the testimony of early adopters and users, demonstrating the potential of FIWARE. If you want to understand the benefits that FIWARE will bring to you, the FIWARE Summit is the place to be!
